

## **Zippy Carrot Ginger Slaw**

This light and refreshing salad hits a lot of big flavor notes and relies on sweet and very fresh carrots. If you can find different colored carrots at your market (I found white ones), give them a try. Moist Medjool dates are worth seeking out as well.

Makes 3 cups, or roughly 4 servings

12 ounces carrots (about 4), orange, white, purple, or a combination

1 teaspoon minced fresh ginger

3 plump Medjool dates, pitted and very thinly sliced

2 tablespoons grated natural (unsweetened) coconut

2 tablespoons lime juice

Shred the carrots in a food processor, then transfer to a medium salad bowl. Stir in the remaining ingredients. Serve immediately, or refrigerate and serve very cold.
